Instead of the images imitating the real, in the postmodern world, it is the real that imitates the image. Postmodern views of history and national identity typically cancel a commitment to modern "master narratives" or "metanarratives" like progress and goal-directed history, and disrupt myths of national and ethnic identities as "natural" foundations of "unity.

In his study of missions and the Church in Kyrgyzstan, anthropologist Mathijs Pelkmans found that evangelical missionaries were strong advocates of contextualization into

Kyrgyz culture even though the Kyrgyz identity was quite fluid. Postmodernity in the industrialised core is marked by increasing focus on civil rights and equal opportunity as well as movements such as feminism and multiculturalism and the backlash against these movements.

If modernity started in the 13th century, modernism only emerged in the late 19th century. Postmodernity proposes that a signifier does not necessarily refer to a single signified, but could instead refer to other signifiers which in return could refer to other signifiers.
