A Modern Greek Tragedy | by Adam Tooze | The New York Review of Books

The Greek Civil War was fought in Greece from 1946 to 1949 between the Greek government and the Greek Communist Party. The immediate prelude of the civil war took place in Athens, on December 3, 1944. Greece was in a state of crisis, which soon led to the outbreak of civil war. The Black Book of Communism: Crimes, Terror, Repression.

Hostilities between the strongly anti-monarchist ELAS and British-supported royalist groups started even before the German withdrawal in 1945. As tangible as the preposterous iron bar guarding the door of a modern Salonica flat well into the Sixties, and as preposterous as the convoy of tanks in the peaceful streets of the city in the dawn of 21 April 1949. To combat the rising influence of the EAM, and fear of an eventual takeover. That the mood is turning distinctly nationalist is evident in calls for a patriotism of the left. Many ELAS guerrillas could be forgiven for believing that the Red Army, then sweeping the Wehrmacht before it, would move into Greece and ensure the liberation of the country. Behind this vocabulary of darkness may be the fear of an eight-year-old boy, killed three weeks, OPLA executed an estimated 13,000 Greeks, twice the number of their own countrymen killed during the three years of German occupation. They were to remain there, in military encampments, for three years.
