What should be deplored is not so much that French cinema isn't producing worthwhile work, but that its work is shut off - I mean it doesn't influence work in other countries. There is nothing here that unsettles or challenges the reader; nothing that makes the reader consider the place of language or the style of writing. If they betray it, if they represent it in a way that differs from our view, that is something .

Michel Deguy narration is a concept too easily confused with a representative sector of American poetry in which the poet "lives" his times and exploits his feelings, either in short,

uncorrected poems like Allen Ginsberg's or in larger works like Robert Lowell's historical poems, in which individual consciousness also reigns Deguy does not, for all that, exclude the narrative from his work; instead he redefines it and, in a metaphoric illustration, circumvents the genre: for him narration is an indispensable clothesline on which the poet pins up his thoughts With this metaphor, which offers a new meaning of narration but resists a clear statement of that meaning, Deguy exemplifies its essential though restrictive role in the articulation of the poem.
